A committed partner with a collaborative approach captured in the "partnership wheel" model

I&P is an active partner bringing its know-how in management and finance backed by an entrepreneurial approach.

The model entirely focuses on partnership with the entrepreneur, with whom we are willing to establish a longterm relationship based on trust.

1

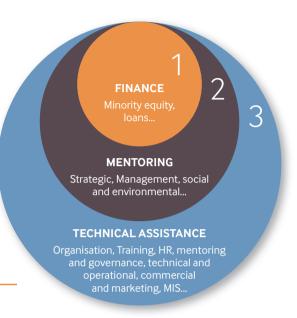

FINANCE

- Through an equity investment as a minority shareholder, in equity or quasi-equity.
- The shareholding is operated through a capital increase on the basis of a mutually agreed valuation, with an investment amount that ranges between 300,000 EUR and 1,5 million EUR.

2

STRATEGIC AND MANAGEMENT MENTORING

- **Before the investment**, we conduct a thorough analysis of the company to understand and develop the strategy to be implemented in partnership with the entrepreneur.
- During the investment period:
 - we are actively involved in setting this strategy by serving on the Board of the company in an active role
 - we also help implement management tools developed alongside with the entrepreneur (scoreboard, budgets, etc.).

3

TECHNICAL ASSISTANCE

- Technical assistance resources are raised from the fund's investors and other organizations providing grants.
- Those are used for capacity building, skills transfer and training.

Our investees' profile

- → Locally founded or managed by Sub-Saharan African or Indian Ocean **entrepreneurs**
- Within the formal economy
- Creating local added value
- → Having a **leading position** on their market
- → Operating in various sectors of activity (health, agriculture, agribusiness, construction, distribution, services, microfinance, etc.)

Our investment and exit process

• The project lifetime follows **5 main steps** within the framework of the investment process. This diagram is offered as a template for the process, with approximative timing.

• A shareholders' agreement signed by I&P and the entrepreneur states the conditions of governance and share transfer.

→ EXIT SCENARIOS

- Purchase by the founder/manager
- Purchase by a strategic partner, ideally a former co-investor
- Joint transfer to a competing group or company
- Transfer to another fund (more and more popular in Africa), or to a bank (in particular in the case of a microfinance institution)

A tailored ESG/Impact approach for each company

We endeavor to develop a "win-win" situation while creating social and financial value for the company.

→ Our approach is based on a methodology which takes into account ESG (environmental, social and governance) risks and opportunities throughout the investment cycle with the intention of building responsible and sustainable growth on the African continent.

→ For instance, we aim at setting up energy efficient systems in order to reduce production costs as well as our carbon footprint. We are committed to improving work conditions for employees, enhancing steady employment and recruitment. On governance, we promote an improvement in the accounting practices that enable the company to function more effectively.

PRACTICAL STEPS

- → We build an ESG/Impact action plan together with the entrepreneur. This action plan defines a number of areas for improvement throughout the investment period and beyond.
- → In order to evaluate impacts, we collect every year a number of economic, social, environmental and governance indicators that state cross-cutting areas for improvement for the companies' portfolio. These indicators are presented to our investors within the framework of a yearly ESG/Impact reporting.
